

# Tympanum

---

*Do you suffer from disturbing constant ringing in the ears - annoying sounds like buzzing, whistling or hissing? You're not alone.*

According to an estimate, nearly 70 million people suffer from this condition called Tinnitus and these figures are on the rise. It is a common problem and affects about one in every five people. For many, it is a ringing sound, whereas for others, it is humming, shrieking and sometimes roaring. The noise may seem to originate from one ear or both ears, from a distance or from your head and may be irregular, constant or pulsating.

## What is Tympanum and how it can help?

Tympanum is a natural supplement that has been formulated to provide relief by controlling the noise, dizziness, and the highly disturbing and uncomfortable feeling associated with the condition. The most common causes of the condition include:

- Long term exposure to high frequency sounds
- Certain drugs/medications such as diuretics, quinine, aspirin and antibiotics
- Aging
- Injuries in head
- Ear drum injuries
- Elevated blood pressure
- Post traumatic stress syndrome

The powerful supplement has been designed to work in three ways to address the problem.

- **Enriched with vital nutrients** that are needed by the body to repair itself. Tympanum includes the most bioavailable forms in its formulation to help the body absorb the nutrients unlike most remedies.
- Offers a **Powerful Nerve Optimization Complex** which helps reinstate any potential nerve damages inside the ears by neutralizing dangerous molecules that damage the inner ear.
- Serves as a powerful anti-inflammatory agent to offer quick relief.

## Tympanum – Restores your ear health with a natural approach!

The supplement has been designed to:

- Provides support to the *healthy functioning of the auditory nerve*, thereby lessening the buzzing sounds, and other hearing problems
- Restores the *balance of the nervous system* and the *energy meridians*
- Offers *relief* to the inner ear to maintain the *state of equilibrium* under high pressure conditions
- Improves the *supply of blood* to the ears

**Place your order today to get instant relief!**
